

Duck Tape Rose

Written By: Julie Hudy

TOOLS:

- [Ruler \(1\)](#)
- [Scissors \(1\)](#)

PARTS:

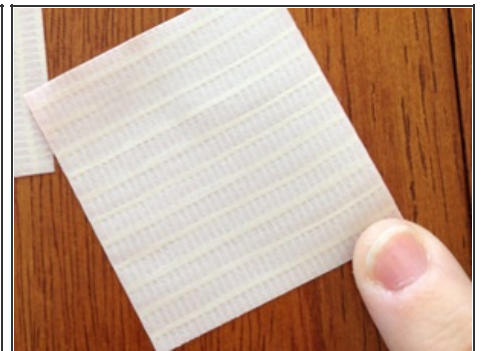

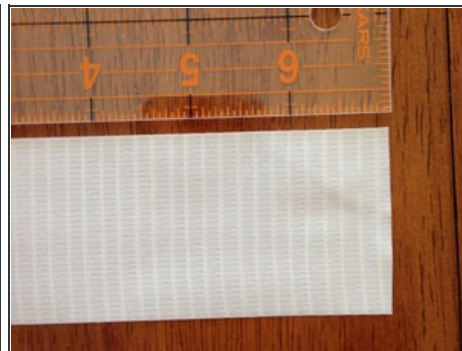

- [Pencil \(1\)](#)
- [Duck Tape \(1\)](#)

Step 1 — Duck Tape Rose

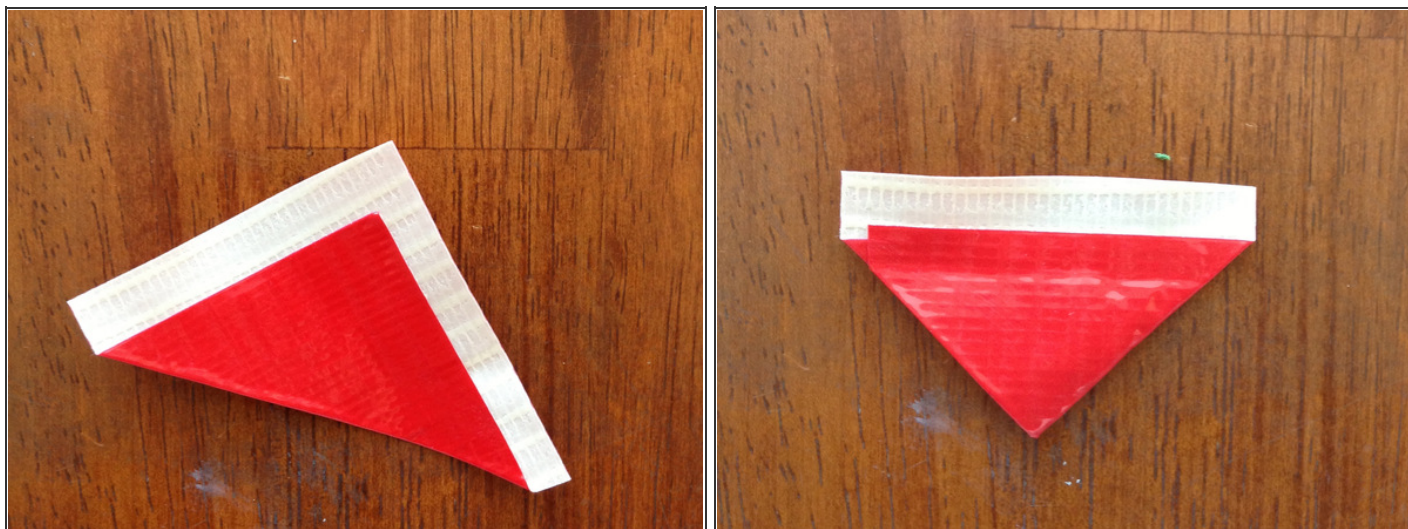

- This is what the finished Duck Tape Rose will look like.
- This is a VERY EASY and fun project..let's get started.

Step 2

- Using your ruler, cut a bunch (25ish) pieces of duck tape 2" long.

Step 3

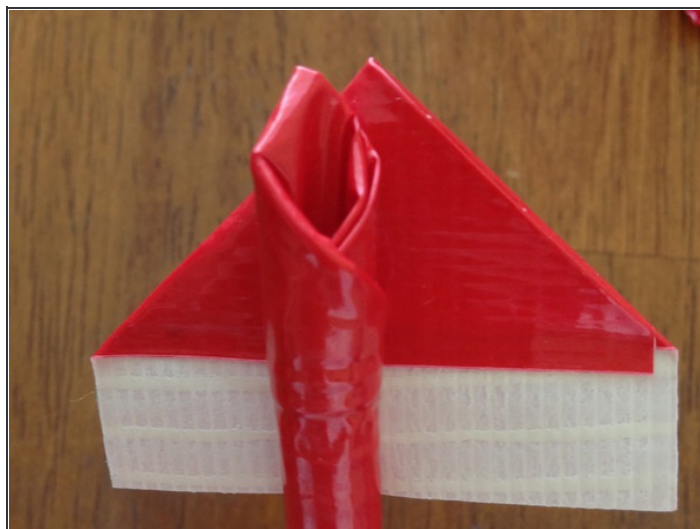

- Fold piece as shown in picture 1. Make sure you leave the edge - that will secure your next fold.
- Fold the other corner over making a point. See picture 2.
- The bottom should be left sticky.

Step 4

- Make a bunch. I think I used around 20-25. This will depend on you..how full of a rose do you want to make?

Step 5

- Take your pencil or stick - anything round will do.
- Wrap one petal around the pencil.
- Put the next one just slightly to one side. Wrap it around.
- Continue with the rest of your petals.

Step 6

- Wasn't that easy? Make them in lots of different colors. Have fun!
